👋 About WrittenThinking

Hi, we're **Thomas** and **Livia**—a software developer and a psychologist from Munich. During a six-month trip across the Americas, journaling helped us manage the chaotic world of traveling while staying focused and organized. Back home, we created our first reMarkable template to bring that same balance into everyday life.

WrittenThinking is our **passion project**, where we create practical, mindful templates for productivity, focus, and wellbeing. Each tool is designed to help you feel organized and in control, without feeling overwhelmed. We hope you find them just as helpful in your daily life as we have in ours.

❓ Questions or Feedback

If you'd like to share a thought, say hi, or have ideas for future templates, we'd love to hear from you. Reach us at contact@written-thinking.com
